

HELISWISS IBERICA

YOU FLY,
WE'LL DO THE REST,
ANYWHERE

ABOUT US

Extensive experience in developing and implementing complex projects globally, focusing on aircraft management, maintenance, and customization.

We are a Spanish company founded in Barcelona in 1981, our headquarters are located at Sabadell Airport (Barcelona), with several bases throughout the country. Our extensive experience in the helicopter industry allows us to offer solutions based on the deep knowledge we have acquired over the years.

45+ years of experience

1,000+ aircraft maintained

500+ aircraft painted

40K release to service

COMPANY STRENGTHS

At Heliswiss Ibérica, we combine **flexibility, quality, and experience** with a **customer-focused culture** and a **strong safety policy**, ensuring we **operate independently to meet our clients' needs**.

MATCHING CUSTOMER'S NEEDS

- ❖ Global assistance
- ❖ Professional & committed team
- ❖ Customer-satisfaction-oriented policy
- ❖ We will always find a solution

EXPERIENCED & INDEPENDENT

- ❖ Non-operator dependent MRO
- ❖ Long-term acquired experience (45+ years)
- ❖ Solid background in the maintenance sector

QUALITY & SAFETY

- ❖ Safety Management System implemented to prevent hazards
- ❖ Approved under many quality regulations and CAAs

A technician with a beard and glasses, wearing a dark grey t-shirt with a logo and the text 'www.heliswiss.es', is working on a large, yellow and grey industrial machine. The machine has a large, circular, yellow component with a grid of holes. The technician is using a tool to adjust or tighten a bolt on this component. The background shows a factory setting with various equipment and structures.

- ❖ Rolls-Royce **250 Series**

AVIONICS

Nowadays, we offer equipment from leading manufacturers. We are able to upgrade your helicopter and bring it to a state-of-the-art level.

We have collaborated and installed top avionics OEM equipment for over 25 years. Avionics field has evolved from analog to digital, we were among the first companies to retrofit with glass cockpits, new generation automatic pilots, traffic advisory systems, radar altimeters, audio panels and Bluetooth devices. This led us to a dominant position as an avionics retrofit center.

We pride ourselves on our ability to handle various avionics projects on your helicopter, from simple upgrades to complex system retrofits.

Heliswiss Iberica is a reference Avionics Dealer and Service Center in the South of Europe.

SAFRAN

Heliswiss Ibérica completed the first-ever installation of the Garmin GFC™ 600H Flight Control System on an Airbus H125, under EASA approval.

Garmin GFC™ 600H Flight Control System: now certified for the H130.

This system provides Workload-reducing Stability and Control to Helicopter Flight

- ❑ Cost-effective digital flight control solution brings superior stability, efficiency and safety enhancements to helicopters
- ❑ Helicopter-tailored safety features such as attitude hold with speed stability, overspeed and low-speed protection, a dedicated return-to-level (LVL) mode, Helicopter Electronic Stability and Protection (Garmin H-ESP™ technology) and hover assist
- ❑ Boasts superior integration potential with a variety of Garmin flight displays and navigation sources as well as third-party equipment
- ❑ Attitude-based flight control system with advanced AHRS technology and redundant, cross-checking sensors
- ❑ Available yaw-axis servo supplements tail rotor pedal input by the pilot to help maintain heading and keep the helicopter in smooth, coordinated flight

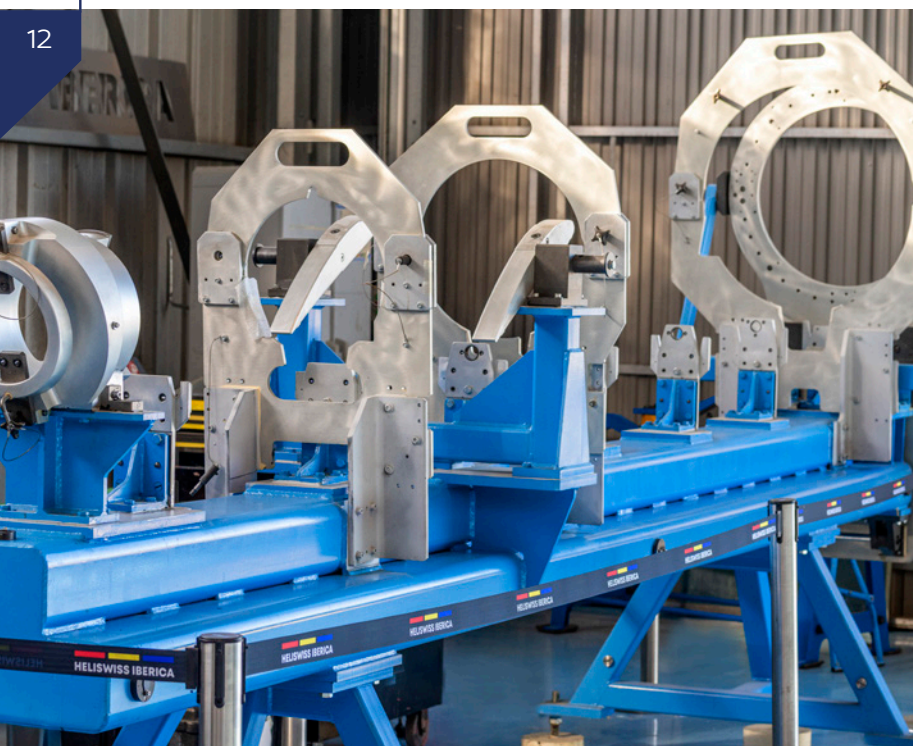

STRUCTURAL REPAIR & UPGRADE

Our team has honed its expertise through years of experience across various levels of structural repair complexity. We are proud to hold an official Level D structural repair granted by Airbus Helicopters.

Heliswiss Ibérica stands as the sole company in Europe offering this advanced level of Structural Repair capability.

Trust us to bring your aircraft back to optimal condition, no matter the challenge.

We specialize in fully repairing and restoring the airworthiness of your helicopter after any occurrence or damage, including:

❖ SB Implementation Aerodynamic Upgrade Kits

❖ After Accidents

❖ Hard Landings

❖ Rotor Strikes

❖ Water Immersions

❖ Lightning Strikes

Our state-of-the-art facilities and equipment enable us to complete repairs in a timely manner, so you can get back in the air as soon as possible. We take pride in our commitment to safety and quality, and we ensure that all repair work is completed to the highest standards.

PAINTING

Heliswiss Ibérica is a leading company in the sector with its Paint Shop. With more than 25 years of experience in this sector and more than 500 aircraft painted, we can offer paint solutions based on our extensive knowledge of the field.

Since 2014 we have been Painting Suppliers of Airbus Helicopters. We carry out paint works in Airbus Helicopters facilities as well as in our own facilities in Sabadell headquarters.

HELISWISS IBERICA

With our extensive experience, we are equipped to meet even the most complex customer requirements, consistently delivering customized solutions that align with their specific needs.

- ✚ Airbus Helicopters Painting Approved Supplier
- ✚ Civilian and Military Standards
- ✚ Guaranteed Lead Time

Any paint job you need, we will provide it in the desired time, design and quality.

SALE AND PURCHASE

Why should you rely on us to purchase or sell your aircraft and/or equipment?

Thanks to our experience and reputation in the industry, we have an extensive network of collaborators, clients, and companies to find you the best option in the market.

Combined with our expertise in maintenance, this enables us to conduct a comprehensive technical, physical, and documentary inspection, ensuring that every detail is considered.

AIRCRAFT & EQUIPMENT

- ❖ Aircraft Search & Evaluation
- ❖ Price Advisory
- ❖ Pre-purchase Inspections
- ❖ Technical Documentation Analysis
- ❖ Drafting of Sale & Purchase Contracts
- ❖ Escrow Account Opening
- ❖ Sales & Purchase Contract Development
- ❖ Transport & Delivery to the customer's facilities

LEASE

Our fleet of single and twin-engine helicopters is available on a wide range of comprehensive leasing options to suit your specific needs and requirements.

These are some of the key benefits that Heliswiss Ibérica offers when leasing helicopters:

❖ Long & Short Term Dry Leasing Services

❖ Customized Aircraft

❖ MRO Support

Our professional experience as an operator and +10 years as a lessor bring to us a perfect understanding of the business. At Heliswiss your aircraft will be expertly configured and delivered following your needs, ready for operation.

❖ Dynamic Components Supplier Cover

❖ Comprehensive Transport Preparation

COMPLETE CUSTOMIZATION

We provide comprehensive aircraft customization services, tailored to meet each client's unique requirements.

Our experienced team excels in modifications such as painting, mission equipment installation, avionics upgrades, and more. We collaborate closely with clients to ensure their aircraft is optimized for specific missions like transportation, search and rescue, aerial filming, and beyond.

Whether modifying new or existing aircraft, we ensure they meet the latest standards and perform at their best.

CUSTOMIZATION PROJECT

In this customization project, Heliswiss Ibérica carried out a complete engine overhaul and upgraded the avionics with the state-of-the-art full **Glass Cockpit**: Multifunctional Display **Garmin G500HTxi** System, Gensys **Autopilot System**, Garmin **GTN 750Xi**, Garmin **GMA 35R** audio panel, and Garmin Nav/Comm **GNC 255B**.

Safety enhancements included the Garmin **GTS800** Traffic Advisory System, Garmin **GRA55** Radar Altimeter, Dart Flotation Gear retrofit, and Pall Pure-Air **PA100** engine filter separator.

For advanced surveillance, we installed a **FLIR** thermal camera and HD video cameras. The project was completed with a **VIP interior** refurbishment, combining luxury and functionality.

We push the limits of
what's possible

to help solve tomorrow's most
complex challenges.

It's how we've approached our calling since 1946.
And why today you'll find our **filtration, separation
and purification solutions** at work protecting
mission critical systems across aerospace and
defense applications.

Airbus Helicopters H125

COMPLETE CUSTOMIZATION PROJECT

In this customization project, we undertook several avionics and safety upgrades to enhance helicopter performance and functionality. The installation of the **Garmin GFC600H 3-Axis Autopilot** and dual **Garmin G500H Txi** displays significantly improved flight control and situational awareness. We also upgraded communication and navigation systems by replacing the older units with the **Garmin GTN 750H** flight navigator and **GMA 350H** audio panel.

Further enhancements included the installation of a **Garmin GTX 335** transponder, **Garmin GRA55** radar altimeter, and the **Garmin GRS 56H** Iridium system for global connectivity. Additionally, the helicopter was equipped with a **Garmin GTS 800** Traffic Advisory System and a camera system to further enhance safety and operational capabilities.
